Product Profile

SAPPHIRE APP TORCH ON MEMBRANE

High Performance Waterproofing Membrane

*SAPPHIRE APP HAS
BEEN DESIGNED TO
MEET THE EXACTING
CLIMATIC DEMANDS OF
THE U.K.*

*SAPPHIRE APP (attic poly-
propylene) polymer modified.
Offers the building owner and
contractor alike excellent peace
of mind and is supported by Euro
Polymers no quibble 10 Year
guarantee.*

1. Applications

- Asphalt Overlays
 - Partial Bonded System
 - Mechanically Fixed System
 - Timber Deck Direct Application**
 - Inverted Roofing
 - Fully Bonded Insulated System
 - Mineral overlays
- ** in conjunction with T.D Underlay

2. Strength

Tensile strength up to 520 N/5cm

Elongation at breaking point of 40% Low/High temperature flexibility.

The bitumen compound will remain flexible down to -10°C .

The product will remain thermally stable above $+120^{\circ}\text{C}$

3. Performance Characteristics

• Fire

When incorporated in a Euro Polymers Specification, and as described in Table A5 of part B of the fire safety in buildings regulations 1991, Sapphire APP Membranes are un-restricted in their use in relation to fire.

• Production

The processes used in the production of Sapphire APP are in accordance with M. O. A. T No 31 1984. The whole production process has been independently assessed to meet ISO9001.

• Compatibility

Sapphire APP is compatible with all products that are normally found on a roofing site. The products that should not be brought into contact with any bitumen based products are hydro-carbon solvents such as creosote and paraffin.

10 Year Guarantee

SAPPHIRE APP has been designed to meet the exacting climatic demands of the U.K. With long-lasting and durable qualities unrivalled in its class, SAPPHIRE APP offers the building owner and the contractor alike excellent peace of mind and is supported by our no quibble guarantee.

In the unlikely event of water ingress and throughout the guarantee period offered (subject to system design) Euro Polymers GB will, if product failure occurs, replace the materials, meet the labour and other associated roofing costs at no further charge to the client. Euro Polymers GB will bring the roof back to its original condition using any E.P system equal or approved.

This guarantee is available via the contractor and is valid from 1 square metre unlike the industry norm where guarantees start from 30 square metres.

Any claim should be submitted to the contractor as soon as practicably possible once a leak has been detected.

It is the contractors responsibility to register the claim with Euro Polymers GB in writing with details of project size, materials used and where and when purchased.

Guarantee certificates are usually issued upon request within 10 working days and are generally sent to the merchant source of purchase unless otherwise requested. The completion of a guarantee request form is required.

The guarantee is fully transferable in the event of the building owner moving on. (a nominal charge is levied for a new certificate to be raised) full guarantee terms and conditions are available upon request.
